Homework 1

Create 2 screenshots:

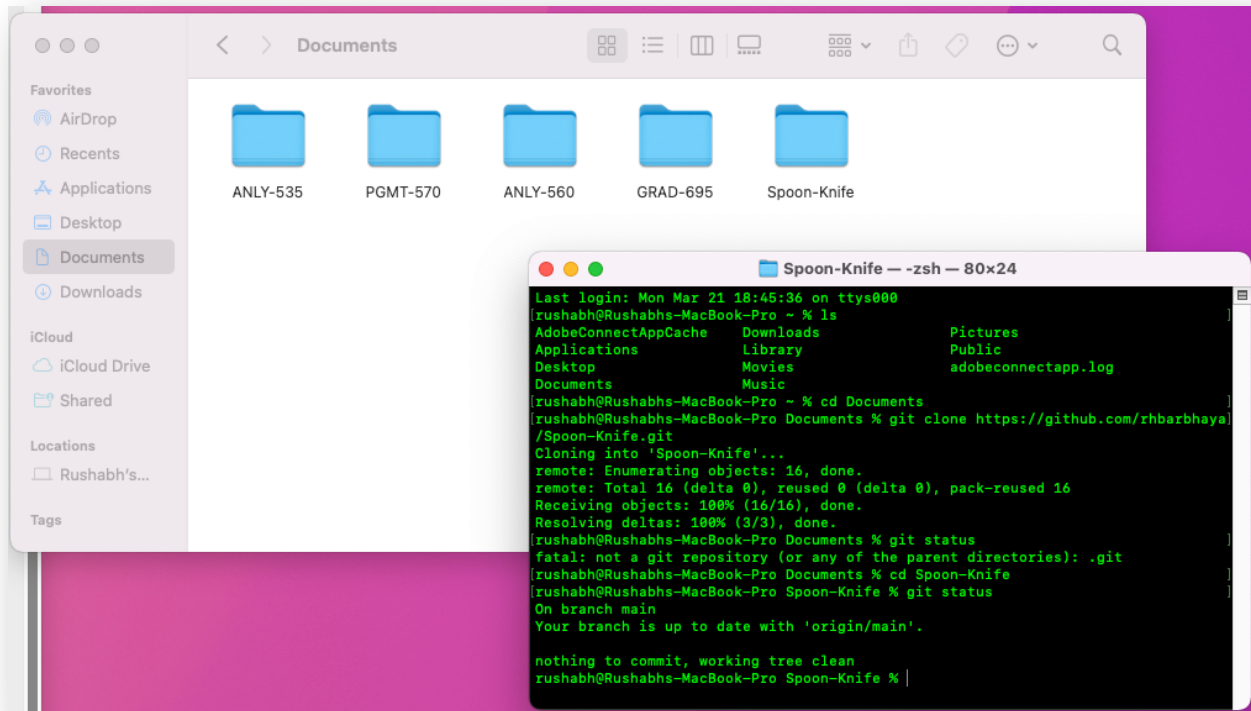

1. Your GitHub main webpage that shows
 1. Your ANLY560 repository and
 2. Your Spoon & Knife repository. This is a **single** screenshot that should be of your main page

<https://github.com/rhbarbhaya/ANLY-560.git>

My main page is customized to showcase my profile. Screenshots are attached if that's need for the assignment

The screenshot shows a GitHub profile page for Rushabh Barbhaya. The profile is customized to showcase his background and skills. The header includes navigation links like 'Pull requests', 'Issues', 'Marketplace', and 'Explore'. The profile section on the left features a circular profile picture, the name 'Rushabh Barbhaya', and a bio: 'Automation, Business Intelligence, and Data Specialist'. It also lists his location as 'United States of America' and his email as 'rbarbhay@stevens.edu'. The 'Currently...' section lists his current roles: 'Student at Harrisburg University of Science and Technology studying for my Masters in Analytics', 'Business Intelligence Specialist', and 'Learning R and RStudio'. The 'Academics...' section lists his degrees: 'Master of Engineering in Engineering Management with Specialization in Data Analysis' and 'Bachelor of Technology in Electronics and Telecommunications Engineering'. The 'Connect with me:' section shows social media links for Twitter, LinkedIn, and Instagram. The 'Languages and Tools:' section lists Python, R, SQL, VBA, Alteryx, Knime, RapidMiner, and Automation Anywhere. The 'Pinned' section displays four repositories: 'ANLY-580' (Coursework for ANLY 580, HTML), 'Songs' (Python), 'ANLY-560' (Public), and 'Spoon-Knife' (Forked from octocat/Spoon-Knife, HTML). The page also includes a notification bar at the top stating 'Your pins have been updated. Drag and drop to reorder them.'
